## Technical Data Sheet

### WS 1801 S

Family: 1  
Product code: 1801S00

Creation date: 20/10/2013  
Review date: 14/03/2017  
Página: 1 de 2

## DESCRIPTION

Non-flammable Antispatter

**WHALE SPRAY**, Thanks to his effort on improvement and continuously development has the pleasure to introduce you the most complet Antispatter on the market. His special formula makes it a Multifunctional 360° product.

**WS 1801 S ANTISPATTER NON FLAMMABLE** provides an easy and quick way to prevent spatters adherence on methallic surfaces while welding and laser cutting process, Eliminates the need for chiseling, sharpening or brushing after welding process. Prevents the obstruction of nozzles on automatic and semiautomatic equipment.

## CHARACTERISTICS AND ADVANTAGES

- Non flammable
- Biodegradable.
- Compatible with painting process
- Cleaning effect
- Welded joints without pores.
- The best antioxidant protection on the surface of parts.
- 0% harmful effects to the welder.
- Increases arc stability, ensuring free flow of gas.
- Silicone heat-resistant barrier.
- Long-lasting anti-stick effect.
- Weld projections are easily removed with a cloth.
- Economical use because it forms a thin film.
- Contains powerful and effective corrosion inhibitors to protect treated surfaces and equipment.
- Optimal on galvanized surfaces.

## APLICACIONES

- MIG/MAG MANUAL TORCHES
- PLASMA CUTTING TORCHES
- MIG/MAG ROBOTIC TORCHES
- TOOLS, PARTS AND WORKING AREAS.
- PLASMA CUTTING GRIDS
- SOLDADURA POR PUNTOS.
- BRAZING( CuSi3).
- WORKING SURFACES ON PARTS
